

## ***Huron Church House, Diocese of Huron***

### **Mission Statement**

#### ***Our Mission:***

Building up the body of Christ and preparing God's people to live their Mission.

### **Value Statement**

#### ***Our Values:***

In our constantly changing world, our values are challenged daily in a society that encourages the *technological touch* rather than the *personal touch*. As a result, it is even more important to remember the human factor. We honor this through worship and our life together as a *Christian Community*.

We, as representatives of the Diocese of Huron, set a high standard for ourselves and do our best to convey that standard with actions of regard and mutual respect to our people and our community.

#### ***Team:***

Recognizing that we each have individual strengths and gifts, we strive to work together for the benefit of all. Through trust, openness, honesty and flexibility, we communicate our need and desire to assist each other and add value to the team.

#### ***Relating to the Outside World:***

We foster openness to others, welcoming those who enter our doors. We look inward to gain insight and reflect on our identity and sense of mission so that we may look outward to the community at large. We open ourselves to God's providence and stay attuned to what God may be calling us to do through our contact with others: an unexpected visit, a letter, a phone call. We demand of ourselves an awareness of daily reality with all of its unexpected happenings and insecurities so that we may greet others with the expectation that we will encounter our God.

#### ***Learning Environment:***

Rejoicing in each other's abilities we encourage creativity, openness to change, and clear interactive communication. By empowering others to be what they can, we build a strong, positive, and committed team.
