## **B. Other Finance and Budget Information**

### **1. Travel**

The cost of operating a car is subject to fluctuations in operating costs, primarily fuel. The Diocese regularly reviews the travel reimbursement rate for diocesan volunteer and staff by considering the policies of other dioceses, comparable not-for-profit organizations, and the Canada Revenue Agency guidelines.

The rate should never be lower than the rate set by Diocesan Council which is 52 cents per kilometer for the first 5,000 km and 46 cents per km thereafter.

Travel between home and church is not eligible for reimbursement. A log must be kept for all church related travel and include addresses at the beginning and end of the trip, the total kilometers, and the reason for travel. Expense claim forms must include the same information or have attached a photocopy of the relevant pages of the travel log. See Appendix D

There are tax implications if the reimbursement rate exceeds what is deemed reasonable by the Canada Revenue Agency (CRA). If the amount exceeds that rate, the entire allowance will be deemed a taxable benefit, and must be included in one's report of taxable income. In turn the individual may then be able to claim automobile expenses by filing Form T2200, which may be obtained from the diocesan payroll office (call 416-363-6021 / toll-free, 1-800-668-8932, ext. 239). In 2018, the maximum rates set by CRA were 54 cents per kilometer for the first 5,000 km and 48 cents per km thereafter. The rates can be found on CRA's website at [www.cra-arc.gc.ca/tx/bsnss/tpcs/pyrll/bnfts/tmbl/lwnc/rts-eng.html](http://www.cra-arc.gc.ca/tx/bsnss/tpcs/pyrll/bnfts/tmbl/lwnc/rts-eng.html).

### **2. Utility Costs**

(Heat, Hydro, Water, Basic Phone (including Parish related calls) and Internet Connection; Passed at Synod 2012). Rectory utilities or housing utilities paid by the parish. This should be the actual amount or as close as possible.

### **How to determine Clergy Remuneration**

The clergy remuneration package consists of:

1. a stipend,
2. a living accommodation or a reasonable housing allowance, together with the reasonable costs of fuel, telephone and public utilities (taxable benefit),
3. the diocesan benefits plan including group insurance, dental and vision care, and extended health care, EFAP
4. the diocesan pregnancy and parental leave benefits,
5. post-retirement benefits,
6. short-term disability and long-term disability benefits,
7. the national continuing education plan,
8. the General Synod Pension Plan,
9. the Huron Pension Plan
10. the Huron Retiring Gratuity
11. statutory benefits such as Canada Pension Plan and Employment Insurance,
12. 31 days of vacation including 5 Sundays, plus a one-week winter break per year, after 5 years ordained
13. two weeks of Professional Development Leave per year (not including Sundays),
14. eligibility for sabbatical and education leaves after 5 years of continuous full-time service in the Diocese of Huron.

### **Determining Remuneration**

When a cleric is appointed, the Executive Archdeacon, after consultation with the Churchwardens, sets a stipend amount and housing arrangement. From that point forward, it is expected that the Churchwardens will meet annually with the cleric to determine changes to his/her level of remuneration.

Here are a few suggestions that may be of help in preparing for this meeting:

#### **Step 1. Adjust by Cost of Living**

Adjust the present stipend level by the approved Cost of Living Adjustment.

Diocesan Council approves the cost of living adjustment each year.

The minimum stipend is changed to reflect COLA each year. If the cleric is paid more than the minimum and the Churchwardens intend to make the cost of living adjustment, they must reflect the increase on the Compensation Sheet form to central payroll.

The cost of living adjustment should not be considered a raise as it only ensures the stipends are keeping pace with inflation.

As just and fair employers, it is advised that a cost of living adjustment be applied to lay staff compensation levels.

#### **Step 2. Review the Housing Arrangement**

Review the present housing arrangement. If the cleric is in a rectory, assess and plan for any repairs. Since the rectory is considered part of the remuneration package for clergy it is important to properly maintain the home.

a) Rectories

Churchwardens are responsible for inspecting the rectory on an annual basis. The inspection is to be carried out at a time that is mutually convenient for the Incumbent and the Churchwardens. The Churchwardens are to address, on a timely basis, all deficiencies identified by the inspections and all repairs are to be carried out by licensed and/or qualified individuals.

b) Housing Allowance

A housing allowance is given to clergy who are not living in a church-provided home. Housing allowance is calculated at a minimum 40% of stipend.

Please note that as of January 1, 2010, CRA requires clergy to submit a T1213 for their approval before housing allowances are eligible for tax deductions at source. Without this pre-approval, the taxes will be deducted from the housing portion of the clergy remuneration.

### **Step 3. Other Factors to Consider**

Compensation in the secular setting is traditionally meant to attract, reward, motivate and retain employees. Historically, clergy remuneration was in the form of a living, meant to free the cleric from worldly concerns. Today, in the Church, we find these two principles intertwined. As the Churchwardens and the cleric try to discuss clergy remuneration the following questions should be considered: What is the standard of living at the present remuneration level? What not-for-profit compensation level suitably reflects the skills, talents and responsibilities needed for ministry? Everyone needs to know they are appreciated and valued for what they contribute. Does the present remuneration level communicate this?

Consider as well extra schooling, continuing education and workshops the cleric has engaged in. What are the unique challenges of serving the parish (ie. multi-point, larger parishes with complex programming, smaller parishes); in what ways is the cleric connecting the parish with the wider community or providing for the parish in ways that exceed common expectation?

It is often very difficult for a lay person to assess the effectiveness of a cleric's ministry since ministry is often confidential and is conducted in a one-on-one setting. Also, the outward manifestations of effective ministry are difficult to consistently measure. For example, a decrease in church attendance may reflect demographic shifts rather than the abilities of the cleric. Along with this, clerical ministry must never be considered in isolation from the parish ministry. The clergy can not accomplish what the parish is not willing to support. Keep these factors in mind and do not rely solely on intuitive feelings and subjective hearsay.

### **Step 4. Review the Remuneration Data**

Review the Remuneration Data in Appendix B to assess your parish remuneration level against the diocesan averages and medians.

### How to Keep a Mileage Log

Canada Revenue Agency (CRA) states that keeping an accurate logbook of business travel maintained for an entire year is the best evidence you can have to support your motor vehicle expense claims.

The following information should be recorded in the log book each time the vehicle is used for business purposes:

- the date,
- the starting point,
- the destination,
- the purpose of your trip;
- the vehicle starting mileage,
- the vehicle ending mileage,
- the total kilometers driven.

#### Sample Mileage Log

Mileage log books are typically available at office supply stores or you can use the following template which can be copied into a Word, Excel or similar office document by selecting the text and using copy/paste (using Windows, outline the text to be selected with the mouse, and hit CTRL-C to copy and CTRL-V to paste).

Vehicle Mileage/Expense Log Year ____ Odometer on Jan. 1 ____							
Date	Mileage Start	Mileage End	Mileage Total	Business Purpose	Park\$	Tolls\$	Other\$

#### Automatic Mileage Tracking

Manually entering trip information in a log book is tedious, particularly if you make a lot of business trips.

Fortunately there are several mileage tracking applications available for Apple and Android smartphones that make use of the phones GPS to keep track of every mile/kilometre driven for business purposes. For a small monthly fee the app will log your business trip information and enable you to download a mileage summary your tax return.

Some of the more popular mileage tracking apps include:

- [MileIQ](#) (IOS and Android)
- [Mileage Expense Log](#) (IOS only)
- [TripLog](#) (IOS and Android)
